Driver ID via iButton

- **Driver login via iButton** – Drivers easily and quickly log in to each vehicle via their individual tag against an installed iButton, assigning them as the driver on reporting.
- **Buzzer** – without iButton login, a buzzer sounds to remind the driver to log in.

Benefits

- Low learning curve for your drivers – Quick and easy to use.
- Know who was driving each vehicle, and when.
- Identify the driver if incidents occur.
- Use the technology that's currently in your drivers' pocket.
- Identify drivers at risk with driver behaviour reporting.
- Meet your Health & Safety requirements.
- Use drivers licence login to guarantee your drivers have their licence with them, a legal requirement.
- Removes the need for driver log books for light fleet.
