

LOCI ASSET TRACKING Plan

Managing unpowered assets has never been easier. Know where your valuable assets are, how they are used, and when they need maintenance.

Locate & manage anything – even unpowered assets

Features

- Track stationery & in-motion locations of assets.
- A revolutionary anti-theft and backup solution.
- **Map View** – locate, manage & utilise your assets.
- **Compliance** – automate maintenance & servicing schedules.
- **View vital maintenance and safety aspects** on our Check Sheet app to ensure you get the information needed to keep assets maintained, safe & compliant.
- **Asset register** – keep track of important asset details.
- **Geofencing** – for security, health & safety, and reporting.
- **Notifications** – via app & email

Benefits

- Locate & manage your assets by knowing where they are and how they are used (never 'forget' where an asset is).
- Schedule regular asset maintenance and compliance to eliminate costly unscheduled repairs and keep your assets running.
- Theft recovery – reduce your insurance claims and remove costly downtime and long lead times for replacements.
- Manage all your assets on one easy-to-use platform – from vehicles to plant & machinery.
- Geofence asset location to be notified when an asset leaves or enters an area.
